Summary: Highly skilled and innovative Senior Mobile Developer with extensive experience in Flutter/Dart and a strong background in cross-platform mobile application development. Proficient in creating efficient, scalable, and visually appealing mobile solutions using advanced techniques and best practices. Adept at implementing complex UI designs, optimizing performance, and ensuring code quality through Test-Driven Development (TDD) and clean architecture principles, including feature upgrades and backend functionality. Seeks to leverage extensive mobile development skills and innovative flair in a dynamic development team to create impactful Flutter applications.

Professional Experience

Senior Flutter Developer 3Scorers | [June 2023] - Present

- Developed and maintained the 3Scorers mobile application using Flutter/Dart, available on Google Play Store.
- Implemented custom animations and complex UI components using Custom Painter and Rive.
- Utilized Flame engine for creating interactive game-like features within the app.
- Implemented Clean Architecture principles for scalable and modular code structure.
- Integrated RESTful APIs and implemented efficient state management solutions.
- Collaborated with cross-functional teams to deliver high-quality features on time.
- Mentored junior developers and conducted code reviews to maintain code quality standards.
- Wrote comprehensive TDD (test-driven development) code, including both widget tests and unit tests, for all app controllers and use cases. This helped ensure the stability and reliability of the application.
